Energy Climate In America

- **Reason # 1** -- The country has been in recession for all most 2 years now and consumer are looking for anything that can save them money and energy makes up a large percentage of their monthly expense

Energy Climate In America

- **Reason # 2** -- The “Al Gore” effect. It does not matter if you believe Al Gore and all the news about “Global Warming”, consumers today have a heightened awareness of the cause and effect of our actions on the earth and are more open and educated to new ideas regarding energy.

Energy Climate In America

- **Reason # 3** -- The Federal Government
- As President Obama said in his 2010 State of the Union *Address*:
- ***“We need to encourage American Innovation. And no area is more ripe for such innovation than energy.”***

Energy Climate In America

- **Reason # 4** -- Energy Security
- Consumers are looking for alternative ways for “Energy Security” for their homes and businesses.
 - Hurricane Katrina
 - Ice Storms in February 2009

Energy Climate In America

- **Reason # 5** -- Right Thing To Do
- It is the feel-good effect and we all really want to improve our environment for future generations.

Remember

- “It was an unbelievable market BECAUSE no one wears shoes.... “

Remember

Thank You
